# Coppicing and Coppice Crafts Workshop

**Saturday 29 October, 9.30am-5.00pm**

To celebrate National Coppicing Day, SWT will be hosting a coppicing workshop at Asham wood, Mendip's largest ancient semi-natural woodland, with generous support from the owners of the site, Hanson UK. Training will be provided in coppicing techniques, grading materials and we will also look at coppicing products and crafts. The day will be led by a professional woodsman and experienced teacher, Tim Gatfield. If you own some woodland, know someone who does, or are interested in joining in on a coppicing volunteer day with SWT, come out to the woods and brush up on your skills in this ancient technique.

**Free event, but booking is essential**
